Budget  
Summary

General

## Instruction

These instructions are provided to help charter schools prepare the expenditure budget. Within the forms, blue font and light blue highlights indicate that an instruction is linked to that specific line. An instructions button has also been provided that links to any general instructions or to the first instruction for a page. The forms have been set to print without "objects" so that the instructions buttons do not print.

The cells in the prior year columns on the budget forms contain formulas that will bring forward budget amounts from the FY 2018 budget forms. However, the cells have not been protected so users may also enter the information manually. To bring forward amounts automatically, the most recently revised FY 2018 budget must be saved as budget18.xls in the C:\CSFORMS folder. If the file is not named budget18.xls, the formulas will not function properly. Excel will ask the user to update information when the budget19.xls file is opened. Users should review amounts reported in the prior year column to ensure they agree to the school's most recently revised FY 2018 budget.

This cell will only accept entries of 9 digits. Do not include any slashes, dashes, etc. Enter the school's CTD number plus 3 zeros.

The version of the budget being submitted on the cover page is formatted with a drop down menu. Select the appropriate choice from the menu: Proposed, Adopted, or Revised (including the revision number). Only choices in the menu may be entered in the cell.

All information on the cover page must be completed/updated when the proposed, adopted, or revised budget is printed out for the Governing Board to sign. All information, excluding the Revenue information, must also be updated when the budget is revised.

Estimated revenues by source for FY 2019 should be based on the best information available at the time the budget is prepared. Estimated revenues may be more or less than estimated expenses.

In accordance with A.R.S. §15-189.05, as added by Laws 2018, Ch. 285, §3, a school's budget shall include the prominent display of the average salary of all teachers employed by the school for the budget and prior years, and the increase in the average salary of all teachers employed by the school for the budget year reported in dollars and percentage. Schools must also prominently post this information on their website home page separately from its budget. The Law does not provide a definition of a teacher. Each charter should be consistent in the type of salary information included in this table from year to year. An optional comment box is available to provide any additional detail regarding the average teacher salary calculation. Schools should revise the average teacher salary information anytime a revised budget is submitted to ADE.

Fill in the contact information for all positions listed on this tab. If any of the positions do not exist at your school, please fill in the appropriate person to contact related to that topic.

Depreciation expense should not be reported on the budget forms. In addition, purchases of capital assets (land and land improvements, site improvements, buildings and building improvements, equipment, and construction in progress) should not be reported in the budget forms except in the Capital Acquisitions section of page 2.

Schools with known special education students and programs at the time of budget adoption should budget for expenses in program code 200. Also, budgeted special education expenses in program code 200 should be allocated by program type on page 2. Total budgeted expenses on line 27 should equal total Special Education Programs By Type on page 2, line 8.

## **Instruction**

Schools should budget for K-3 Reading Program expenses in program code 550. The State Board of Education must give approval to a school before any portion of the monies generated by the K-3 reading support level weight may be distributed to the school. A.R.S. §15-211. Contact ADE's Move on When Reading program area with questions concerning the K-3 Reading plan requirement and approval status at:

<http://www.azed.gov/mowr/>

The total of federal and state project expenses (project codes 1100 through 1499 from page 2) should be included on line 37. Schools should not include federal and state project expenses with other school wide project expenses on lines 1 through 36.

Schools participating in the Arizona State Retirement System should budget in object code 6200 at the rate of 11.64% for retirement contributions and 0.16% for long term disability contributions for covered positions. For positions subject to the Alternate Contribution Rate, schools should budget at the rate of 10.53%.

Separate accountability is required for each federal and state project. Therefore, charter schools should estimate the expenses for each federal or state project in which the school participates. The totals on line 32 should agree with the total columns for federal and state projects on line 37 of page 1. A.R.S §15-1261 requires charter schools to establish an E-rate Project to account for any E-rate funding received by the school. Monies budgeted for the E-rate Project should be included within the Other Federal Projects on line 17.

Schools that receive monies from the college credit by examination incentive program per A.R.S §15-249.06, should deposit them in Project 1456—College Credit Exam Incentives. At least 50% of the bonus monies received from this program must be distributed to the classroom teacher for each student who passes a qualifying exam. The remainder of any bonus monies received from this program may be used for teacher professional development or student instructional support or materials.

Schools that receive monies from the Results-based Funding Project per A.R.S §15-249.08 should deposit them in Project 1457—Results-based Funding. Monies received must be allocated directly to enhance, expand or replicate the school site that generated the results-based funding and should not supplant monies budgeted or received from any other source that are generally provided to that school. The majority of the monies received must be used for teacher salaries, to hire teachers and to provide for teacher professional development. A portion of the monies received may be used for the expansion and replication of that school site as a quality school model. The monies must be used to sustain and replicate results, to serve more students on a waiting list at a school with a letter grade designation of A or B and to increase salaries for teachers, other classroom staff and school leaders closing the achievement gap in high-poverty schools.

Enter the increase in the capital asset accounts (land and land improvements, site improvements, buildings and building improvements, equipment, and construction in progress) for assets to be acquired by purchase, lease purchase, or construction.

If the school budgets for capital acquisitions related to the K-3 Reading Program, the increase in the capital asset accounts for those acquisitions should be included by asset type on lines 1 through 5. The total of all capital acquisitions for the K-3 Reading Program should also be reported on line 7.

Schools budgeting for special education expenses in program code 200 on page 1, lines 16-26 should report amounts allocated by program type on page 2. Supporting documentation should be retained for the allocation of expenses budgeted for individual special education programs.

## **Instruction**

Schools should budget total expenses for the disability classifications defined in A.R.S. §15-761.

Program 200 Prior Year and Program 200 Budget Year column totals should equal line 27 on pg. 1.

Audit services expense should be the total audit costs to be incurred during the budget year.

Classroom instruction expenses should be the total of expenses budgeted in function code 1000 for program codes 100, 200 and 500 for the budget year.

Schools participating in the National School Lunch Program are required to spend a portion of their state equalization assistance to support the operation of their food service program. Schools must report on their budget the amount of state equalization assistance that will be expended for their food service program during the 2019 school year. This amount will be used to determine school compliance with state matching requirements pursuant to CFR Title 7, §210.17(a). ADE's Health and Nutrition Services will verify the amount reported on the budget was reported as spent when schools' annual financial reports are submitted. Any questions related to state matching requirements should be directed to Health and Nutrition Services at (602) 542-8700.

See USFRCS page III-B-1 for guidance on the use of the Instructional Improvement Project (Project 1020).

Instructional Improvement Project monies spent for Dropout Prevention programs and Instructional Improvement Programs must be spent for maintenance and operation purposes only.

Schools receive revenues from the Classroom Site Fund each year. A.R.S. §15-977(G)(1) requires the Joint Legislative Budget Committee to calculate an estimated per pupil amount each year. For FY 2019 the estimated cash payment is \$423.00 per "Group A weighted" pupil (Total of Work sheet B, line I.A.4 and Work sheet B.2 lines I.A.3 and III.A.3).

See USFRCS page III-B-1 and USFRCS Memorandum No. 44 for additional guidance on the use of Classroom Site Project monies.

See USFRCS page III-B-2 for guidance on the use of the Structured English Immersion Project (Project 1071). In order to efficiently record structured English immersion expenses, schools should be using program code 260, Special Education—ELL Incremental Costs and Program 430, Pupil Transportation—ELL Incremental Costs, as applicable.

See USFRCS page III-B-2 for guidance on the use of the Compensatory Instruction Project (Project 1072). In order to efficiently record structured English immersion and compensatory instruction expenses, schools should be using program codes 265, Special Education—ELL Compensatory Instruction and Program 435, Pupil Transportation—ELL Compensatory Instruction, as applicable.

The information on the Budget Summary is self-populating and will be automatically brought forward from the other pages of the Budget.
